

FIRECO

- Fireco is a leading brand of high performance Pneumatic Telescopic Mast, since 1975. Our products is widely applied in industries such as Fire Rescue, Telecommunication, Military, Security and Surveillance, Meteorology, Wind Energy, Broadcasting, etc.
- The head office and manufacturing plant is located in Gussago, Italy

FIRECO ASIA

- FIRECO ASIA is established in July, 2008 as part of the FIRECO family to provide exclusive support in the Asia Pacific region.
- With the setup of FIRECO Asia in Malaysia, we are able to provide technical advise, installation service, maintenance, training as well as after sales service promptly to all customers in this region.

Engineered Solution for Telescopic Mast

Product Range

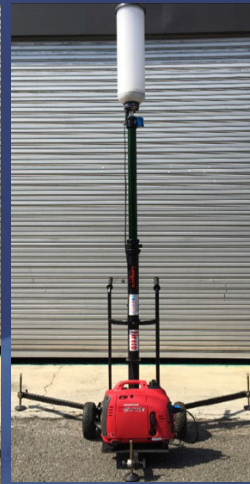

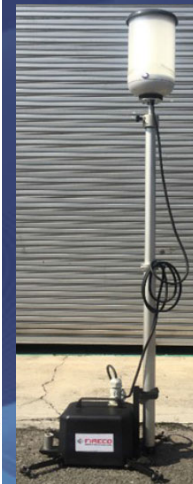

➤ Pneumatic Telescopic Mast

➤ Roof Mast

➤ Portable Lighting / Area 360

Engineered Solution for Telescopic Mast

FIRECO
TELESCOPIC MASTS & FIRE EQUIPMENT

Quality & Reliability (CE/ISO TUV)

Fireco Pneumatic Telescopic Mast is certified by Third Laboratory according to MIL - STD 810G

Testing included

- Blowing sand test
- Blowing rain test
- Blowing dust test
- Salt fog test

Engineered Solution for Telescopic Mast

Product Range

➤ ISK Fire Survival kit

➤ Forestry fire fighting tools

Engineered Solution for Telescopic Mast

FIRECO
TELESCOPIC MASTS & FIRE EQUIPMENT

Common application for Fire Rescue

Pneumatic Telescopic mast with floodlight mounted to emergency response vehicle, to provide bright illumination during night time operations.

Advantages

- Bright illumination for night time operations.
- Illumination from high above ground greatly reduces glare to firemen.
- Roof mast utilise the vehicle height and roof space, inside vehicle will have more space.

Engineered Solution for Telescopic Mast

FIRECO
TELESCOPIC MASTS & FIRE EQUIPMENT

Common application for Fire Rescue

Mast can be installed at the external of vehicle, with suitable lower and upper fixing bracket.

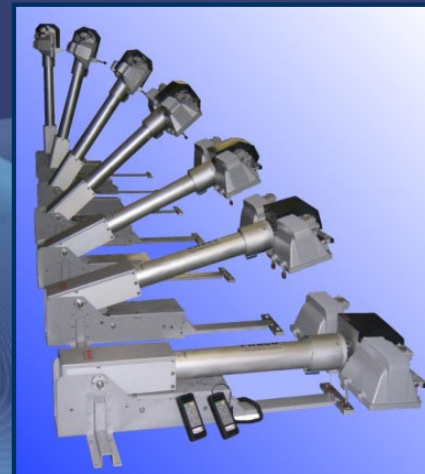

Mast can be installed at the internal of vehicle, with suitable roof fixing bracket.

Roof Mast can be installed at the roof of vehicle, to save vehicle internal space.

Standalone mast with portability to deploy at any place.

Engineered Solution for Telescopic Mast

FIRECO
TELESCOPIC MASTS & FIRE EQUIPMENT

Common application for Fire Rescue

Aquamast allows extinguishing fires in high buildings and smaller streets, where a larger fire truck does not have enough space to enter.

Battery or Generator powered Portable Lighting for emergency use.

Engineered Solution for Telescopic Mast

FIRECO
TELESCOPIC MASTS & FIRE EQUIPMENT

Common application for Fire Rescue

Area 360 LED floodlight is the most adaptable of the LED range lighting. A number of high power COB LEDs in a translucent polycarbonate casing give increased ground level illumination

Area 360 is suitable to be used for:

- Maintenance services
- Emergency and night rescue operations
- Civil security and engineering operations
