packaging:  
a competitive  
solution for a  
wide range of  
products...**

# Farbal

film wrapping machines

*A solution suitable  
for many sectors...*

[www.farbal.com](http://www.farbal.com)

**FARBAL specialises in manufacturing packaging lines for large-width products:**

- > Wrapping units
- > Side cutting units
- > Side sealing units
- > Shrink tunnels

**Width up to 3750mm / 12.3 ft**

**Height up to 1400mm / 4.6 ft**

**Farbal has been manufacturing wrapping machines for large-width products since 1974!**

**Number 1 in France,**

FARBAL manufactures all the components in a packaging line : sleeve wrapping units, shrink tunnels, side-cutting and side-sealing units, as well as various handling accessories (tilting conveyors, right-angle drive,...).

**In both standard and tailor-made sizes,**

Farbal machines are especially suited for the packaging of oversized or irregularly-shaped products, at slow or fast throughputs.
