

17 inch model size

A φ92.22
B 470mm

17 inch 5 micron Sediment

17 inch 1 micron C/B+scale inhibitor

17 inch 1/5 micron Carbon Block

17 inch 1 micron C/B+SP3

Model Name	Capacity(L)	Flow rate (gpm)	Micron rating	Function
MH4 Sedi(17")	-	1.7	5 um	Reduce Particulate Class 3, Dirt and Sand
MH4 C/B(17")	50,000	1.7	5 um/1 um	Reduce Particulate Class 3/Reduce Particulate Class 1, Chlorine Taste and odor
MH4 C/B + Scale Inhibitor(17")	50,000	1.7	1 um	Reduce Particulate Class 1, Chlorine Taste and odor, Scale Inhibitor(polyphosphate)
MH4 C/B + SP3(17")	10,000	1.7	1 um	Reduce Particulate Class 1, Chlorine Taste and odor, Scale Reduction(SP3 200cc/400cc)

10 inch model size

A φ92.22
B 355.3mm

10 inch 5 micron Sediment

10 inch 5 micron C/B+scale inhibitor

10 inch 1/5 micron Carbon Block

10 inch 1/5 micron C/B+SP3

Model Name	Capacity(L)	Flow rate (gpm)	Micron rating	Function
MH4 Sedi(10 ")	-	1	5 um	Reduce Particulate Class 3, Dirt and Sand
MH4 C/B(10 ")	10,000	1	5 um/1 um	Reduce Particulate Class 3/Reduce Particulate Class 1, Chlorine Taste and odor
MH4 C/B + Scale Inhibitor(10 ")	10,000	1	5 um	Reduce Particulate Class 3, Chlorine Taste and odor, Scale Inhibitor(polyphosphate)
MH4 C/B + SP3(10 ")	2,500	1	5 um/1 um	Reduce Particulate Class 3/Reduce Particulate Class 1, Chlorine Taste and odor, Scale Reduction(SP3 100cc)

High Flow Water Filtration System

**FILTRATION SOLUTION
FOR COMMERCIAL SERVICE**

High water flow
without any electricity

Consistent, High Quality and Easy Maintenance

Enjoy upgraded Taste & overall water Quality

FLUUX Commercial Service Applications

<p>CAFE</p>  <p>Better tasting of coffee and tea and reduced maintenance cost associated with preventing or reducing hard scale build up.</p>	<p>SCHOOL</p>  <p>where High and rich capacity of water required</p>	<p>OFFICE</p>  <p>Better tasting of coffee and tea and reduced maintenance cost associated with preventing or reducing hard scale build up.</p>	<p>HOME</p>  <p>Better tasting of coffee and tea and reduced maintenance cost associated with preventing or reducing hard scale build up.</p>
---	--	---	---

The Benefit of FLUUX High flow Filtration

Food & Beverage

- Effective and high flow filtrations provide good taste water for food and beverage
- Reduces chlorine taste and odor
- Protect drink machine from sudden clogging, corrosion, and unexpected incoming contaminants
- Easy and Quick maintenance

Coffee & Espresso

- Reduce chlorine and taste and odor
- Provide clean and quality water for great tasting coffee
- Prevent lime or scale build up on the machine
- Energy saving by preventing scale build up in system water line
- Easiest maintenance method for coffee machine

Ice Machine

- Reduce chlorine and taste and odor
- Provide clean and quality water for Ice Cube
- Inhibit scale build up in Ice machine
- Protect drink machine from sudden clogging, corrosion, and unexpected incoming contaminants

Drinking & Fountain

- Served for Drinking and Fountain system with Effective and high capacity of filtrations
- Reduces chlorine taste and odor
- Reduce dirty and sediment
- Good for public places like airports or schools

FLUUX Applied to total water filtration applications
