Super Dried Air Compressor

Model no. 3S-DAC90

Description

1	Oil-less Air Compressor
2	Fin Coil type Air Cooler
3	Automatic Water Separator
4	Auto Drain-Bacteria Filter
5	Artificial Intelligent clean-air generator
6	Dual operation Air Drier
7	Pressure controller
8	Aluminum storage Tank

WHAT IS DIFFERENT?

Membrane Air Dried Compressor

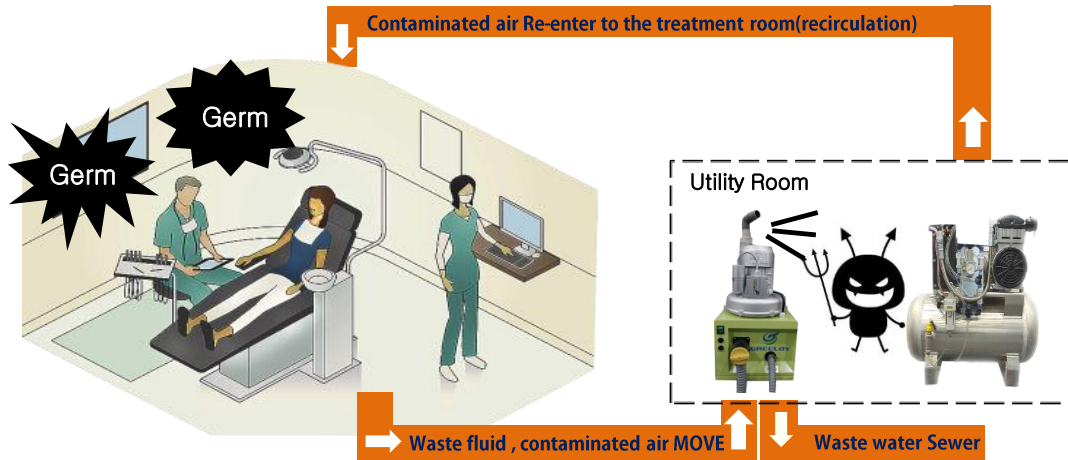

Dual Adsorption Tower

- **High Cost** Membrane Dryer
- **High Cost** Membrane Filter
- **Short-term** Replacement of Filter
- **Complicated** Maintenance
- **Reasonable Cost** Adsorption Dryer
- Use **Semi- permanently** Drying Media
- **Easy** Maintenance

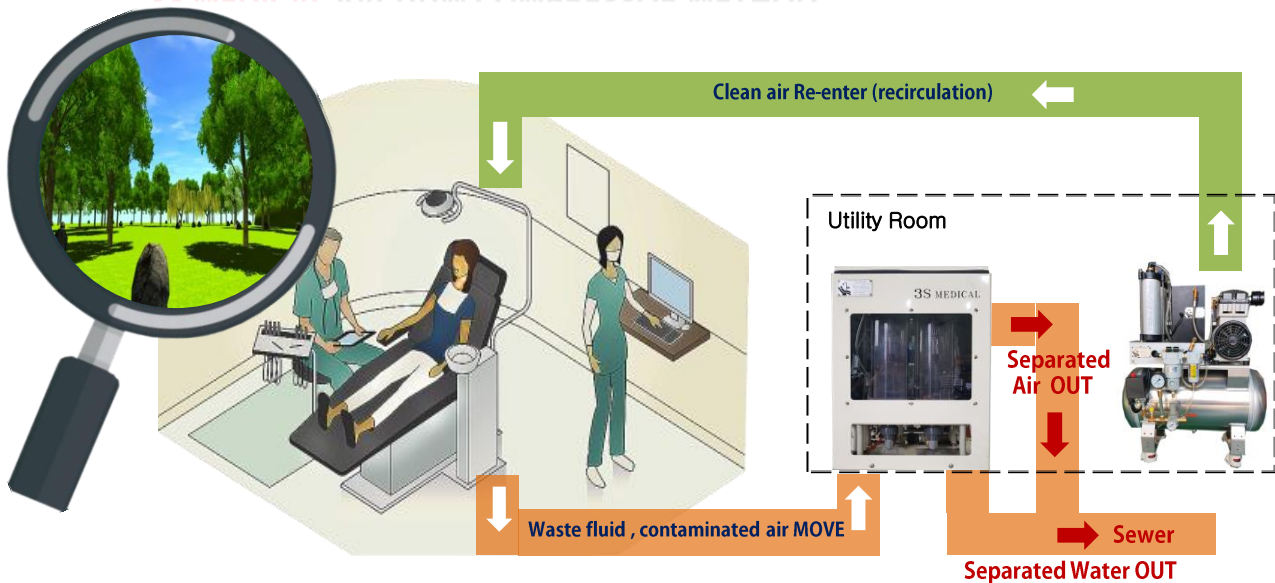

CLINIC SMELLS STINKY?

-COMPETITOR RING BLOWER & WATERING PUMP METHOD

-3S MEDICAL VACUUM COMPRESSOR METHOD

In many dentists, fatal environment is given to patient, doctor, and medical staff everyday (30 times of general bacteria, 5 times of lead, 3 times of fluorine, 11times of ammonia nitrogen occur)

3S Medical products completely separate the absorbed saliva and waste solution with specialized dual separator, even separated odor is discharged to the drain with waste water. In conclusion, we improved hygiene condition for all the people in the dentist.
