

# INDUSTRIAL DUST COLLECTOR with AUTOMATIC FILTRATION

## Powerful Dust Collector

### CH-600 AUTO

3 Motor

#### FEATURE

- Auto Filter Cleaning System (patented)
- PTFE HEPA Filter (fine dust collection up to 0.3 $\mu$ )
- Powerful Dust Collection (1200W x 3)
- Easy Moving (110 cm/43" height)
- Wide Application
  - Surface Preparation Service (concrete grinding/polishing/scarifying)
  - Construction Site, Factory and Warehouse
  - Wood Working, Interior Jobs

| Specification     | CH-600 AUTO  | CH-400 AUTO  |
|-------------------|--------------|--------------|
| Voltage           | 220V 50/60Hz | 220V 50/60Hz |
| Power             | 3600W(4.7HP) | 2400W(3.2HP) |
| Air Pressure      | 3000mmAq     | 2600mmAq     |
| Tank Capacity     | 75 Liter     | 50 Liter     |
| Hose              | ID 45Ø/50Ø   | ID 45Ø/50Ø   |
| Motor Type        | Dry/Wet      | Dry/Wet      |
| Noise             | 65db         | 75db         |
| Dimension (LxWxH) | 75x67x110cm  | 70x58x105cm  |
| Weight            | 66kg (net)   | 55kg (net)   |

### CH-400 AUTO

2 Motor

Auto Filtr  
Cleaning(patented)

PTFE HEPA Filter

Easy Moving

Easy to Separating Tank

Application : Concrete Grinding/Polishing/Scarifying

### CH-600S AUTO (with Cyclone Separator)

#### FEATURE

- 95~97% collected dust drops into the separator, it allows not only to collect large amount dust, but to last filter & motors.
- Wide Application
  - Concrete Grinding/Polishing/Scarifying
  - Construction Site, factory and warehouse"
- Cyclone Separator Tank Capacity : 75 Liter
