

Gauge protector

Model : A070

Spec. sheet no. AD00-07

Service intended

It is used for protecting the gauges from over pressure.
The gauge protector closes at the adjusted set-point pressure.

Accuracy

±10% of setting pressure

Standard features

Max. working pressure
Stainless steel

- Code M, N, H, U : Up to 25 MPa, at 20 °C, G½"
- Code B, P, L : Up to 10 bar, at 20 °C, G½"

Max. working temperature

80 °C

※ This product's Max. working temperature could be varied depending on its working pressure and temperature.
