1.2 EXPLANATION OF GRAPHICAL SYMBOLS

The lightning flash with an arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

1.3 FCC COMPLIANCE STATEMENT

FCC INFORMATION - This equipment has been tested and found to comply with limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

1.4 CE COMPLIANCE STATEMENT

WARNING - This is a CLASS A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

CAUTION - Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

**This installation should be made by a qualified service person and should conform to all local codes.

*** This manual is subject to change without notice for product improvement.**

2. PRECAUTIONS

- **Do not install the camera in extreme temperature conditions.**

Do use the camera under conditions where temperatures are within -20°C to 60°C (in continuous operation). Under high temperatures, ensure proper ventilation.

- **Do not install or use the camera in an environment where the humidity is high.**

It can cause the image quality to be poor.

- **Do not install the camera under unstable lighting conditions.**

Severe lighting change or flicker can cause the camera to work improperly.

- **Never use the camera close to a gas or oil leak.**

It can cause malfunctions to occur.

- **Do not disassemble the camera.**

There are no user-serviceable parts inside it.

- **Do not drop the camera or subject them to physical shocks.**

It can cause malfunctions to occur.

- **Do not allow direct sunlight into the camera.**

It can damage CCD.

- **Do not expose the camera to rain or spill beverages on it.**

If it gets wet, wipe it dry immediately. Liquids can contain minerals that corrode the electronic components.

- **To prevent electric shock and risk of fire hazards.**

- **Do not use power sources other than that specified.**

- **If there are strong radio waves (ex: radio, antenna, ETC ..) around this product, it may affect the function of the product.**

- **Note**

If the camera is exposed to spotlight or object reflecting the strong light, smear or blooming may occur.

Please check the power whether it satisfies the normal specification before connecting the camera.

3. FEATURES

Unobstructed 360° rotation and 120° flip

Heavy-duty long life slip ring allows for 360° endless panning and unobstructed 120° flip.

Light Function

It's built-in 14 pcs Super IR LED(W.LED).

Built-in Fan & Heater

Built-in Wiper System

True Day & Night (ICR Filter Change)

The IR cut filter is when the camera is operating as a color camera for precise color reproduction. With ICR, the filter is removed which allows for much greater light sensitivity in monochrome mode.

OSD (On Screen Display)

The camera IDs, camera preset numbers, preset names, area names, and camera operation status are displayed on the monitor, allowing set up of various camera functions through the OSD menu screen.

Auto-focus 36X Optical Zoom

The built-in 36X optical zoom lens with auto-focus is combined with a 32X digital zoom, providing a maximum of 1152X zoom.

Wide Range Auto functions

Preset : Up to 255 programmable presets.

Tour : Up to 8 programmable Tours consisting of presets with individual dwell time.

Scan : Repeatedly pan & tilt operating between two positions. (Max.8)

Pattern : Up to 4 programmable Patterns memorizing the PTZ movement.

Area : Up to 16 programmable Area display sets.

Alarm : Move the camera to programmed Preset position with Alarm trigger.(Max.1)

Privacy: Up to 8 programmable Privacy masking.

Home Position : Home Position specify the main image display area.

WDR (Wide dynamic range)

The Camera delivers clear, high quality pictures even in backlight, by increasing exposure in dark areas while decreasing it in bright areas a corrected image with clear details results.

Variable speed Pan/Tilt control

In manual mode, sophisticated operating is possible at zoom in state by speed correcting function.

Eco-friendly Green Energy product

Minimize power consumption and save the earth by utilizing the WTK Series all-in-one camera system.
