IN A COMPETITIVE MARKET, SABATIER OFFERS ATTRACTIVE SOLUTIONS TO CAN MAKERS WHO ARE LOOKING FOR PERFORMANCE AND HIGH QUALITY

DOUBLE LANE STACKER

- The Sabatier Stacker is placed at the end of a pail assembly line and nests the conical open head packaging to form stacks ready to be palletised

0000,0 mm
0000,0 mm   0000,0 mm/s
M4   0000,0 mm   0000,0 mm/s
00000,0 mm/s²

00

Number of Pails per stack

- Indexation of the pails to position the bail before stacking

- Possible connection with palletising robot

- To build easier stacks with high number of pails, it is possible to set alternately two different numbers of pails per stack

- Defective pails can be automatically ejected from the output lane or simply put aside to be manually removed for verification

- User-friendly touchscreen panel
- Settings are recorded in recipes
- Remote access via OPC-UA for distant troubleshooting

TECHNICAL SPECIFICATIONS

|	BP5	BP20
