

CAROUSEL LEAK TESTER FOR 18L SQUARE CANS

WITH 10 TESTING HEADS

UP TO 50 CPM

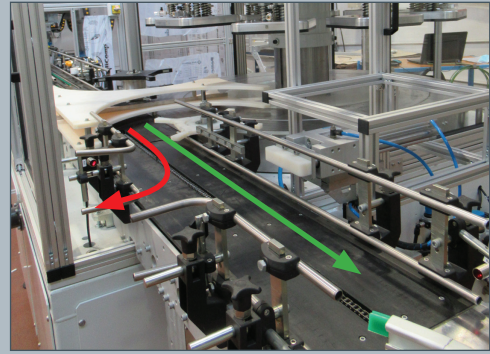

AUTOMATIC CAN HEIGHT ADJUSTMENT

AUTOMATIC LEAKING CAN EJECTION

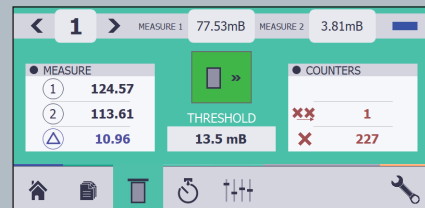

AIR PRESSURED TESTER

- Leak detection thanks to very sensitive pressure difference transducer
- Test pressure around 120 mbars (1.75 PSI)

- Located at the end of the machine, a pneumatic ejector allows to reject automatically the faulty cans

- Reject point adjustable from the control pannel
- Tests results can be saved to a USB drive **USB**

TECHNICAL FEATURES

Cans size and Speed

From 160x160mm to 235x235mm up to 50 CPM

Sensitivity

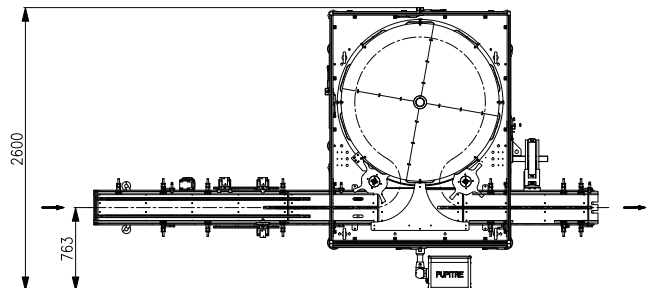

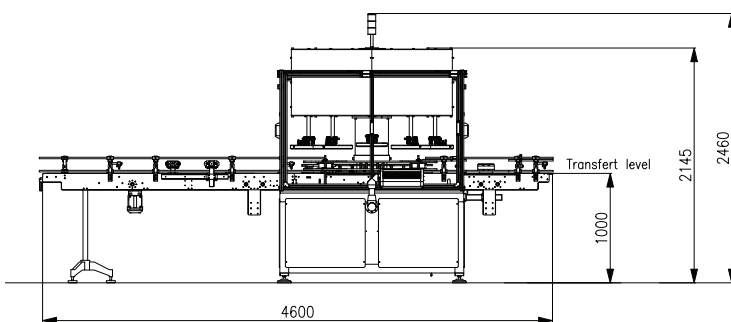

at 50CPM the smallest detectable leak on a 20 liters container is equivalent to a hole diameter of 0.5mm

Can heights

90 to 410mm

Power consumption

2kW
