

SI Series

Sight glass for Easy flow checking & Available anywhere

■ FEATURE

- Can be used for high viscosity fluids
- Not affected by vibration

■ SUMMARY

SI Series is an oil distribution flow monitor that can be designed to dispense up to 12 lines.

Valve lock nut is added to prevent the valve from loosening due to vibration.

SI Series General Specifications

Size	1/4" ~ 1"
Process Connection	PT (F)
Fluid Temperature	Max. 120 °C
Max. Pressure	Max. 10 kgf/cm ² .G

MODEL CODE

S I	-	□	Specification
		1 ~ 12	Refer to below format table

STANDARD MATERIAL

No.	Description	Material
1	Body	FC25, ADC12
2	Valve	BSBM, 5C

FLOW RANGES & DIMENSIONS

Type	Connector size		Length (mm)		Flow range L/min
