

**Build the Future**

Concrete Pump / Truck mixer

# ETM10/12

## Concrete solution Begins here

Easy-care designs with strong outcome

Newly developed truck mixer from EVERDIGM includes all accumulated technologies from 20 year history of EVERDIGM Concrete pump.

Simple design of truck mixer brings a easy access and maintenance at all condition, which is tremendously beneficial for the operator during and after operation.

A generously-sized drum of the truck mixer complies with more than actual working condition which will satisfy all users demand.

	ETM10	ETM12
<b>Overall length x Width x Height</b>	10,000 x 2,488 x 3,985 mm	10,000 x 2,490 x 3,980 mm
<b>Gross weight</b>	38,350 kg	44,000 kg
<b>Chassis</b>	Mercedes Benz A4440	Mercedes Benz A4440
<b>Engine</b>	EURO 2	EURO 2
<b>Engine P.T.O</b>	600 Nm	600 Nm
<b>Drum capacity</b>	10 m <sup>3</sup>	12 m <sup>3</sup>
<b>Drum geometrical volume</b>	18.12 m <sup>3</sup>	19.5 m <sup>3</sup>
<b>Drum rotating speed</b>	0 - 14 rpm	0 - 14 rpm
<b>Water tank volume</b>	600 liter	1,000 liter

### Water tank

1000 Liter capacity water tank with level gauge sufficiently provide enough water for mixing as well as to clean truck mixer after use.

### Blade

Specially designed Blade of mixing drum will minimize the abrasion and maximize the agitation of the concrete.

### Drum

Mixing drum and blade are manufactured with high tensile strengthen materials to extend life cycle of ETM12.

### Ladder and Working lamp

Safe and light weighted ergonomic ladder with spacious access platform with working lamp will optimize working condition.

### High powered truck

High horse powered chassis has been modified with axle for high load and dual reinforcement of frame brings a comfortable driving condition to operator.

### Oil tank & cooler

High capacity oil tank and cooler has applied to react sufficiently in any condition especially with high temperature.

### Balanced load distribution

"H" type center frame help to balance load distribution on chassis and improved travel stability as well.

### Chute extensions

Steel materialized chute brings a higher durability with extend of chute life.

### Rollers

Specially designed rollers are there to support drum more efficiently.

### RPM Control kit

### Pump direction control system

Easy-use designed control lever help you to control drum forward and backward easily while locking system brings safe control.
