

# UCC840C, PAIL COMPACTOR

## COMPACTS METAL PAILS AND CANS TO REDUCE WASTE VOLUME BY UP TO 80%

- Less waste volume in the dumpster leads to less dumpster pickups and lower operating costs.
- The shop's environmental footprint shrinks when less waste volume goes to the landfill.

### FEATURES

- Crushes most pails up to 5 Gallons.
- Compacting takes less than 60 seconds.
- Safety door automatically locks during crushing cycle.
- Unit bolts to the floor for safety.
- Self lubricating.

### OPERATING

- Lift and secure door in open position.
- Place can to crush on platform.
- Rotate the control to initiate crushing. Takes about 40 seconds.
- Door is automatically locked until crushing is complete.
