JEC - Always a Step Ahead

JCP SERIES CENTRIFUGAL PUMPS

High Pride Higher Performance The Highest Quality

JEC Ltd. specializes in the field of sanitary pumps.

JEC was established in 1990 and started producing sanitary pumps utilizing precision cast and pressed parts for the first time in Korea. Since then JEC has been successfully supplying to the process industries centrifugal, rotary and self-priming pumps, as well as blenders. JEC pumps are now renowned for reliability both for general duties and special applications. JEC's success is built upon high quality manufacture and customer satisfaction. Our policy is one of long term vendor partnerships.

Good relations with our customers are prerequisite to our growth.

JEC considers exchanging ideas their customers of the highest importance.

It is our belief JEC fully supports to meet customers' expectations and contributes towards their prosperity.

We are always striving to make every effort to start new initiates.

The JEC philosophy is one of continuous improvement and keeping promises.

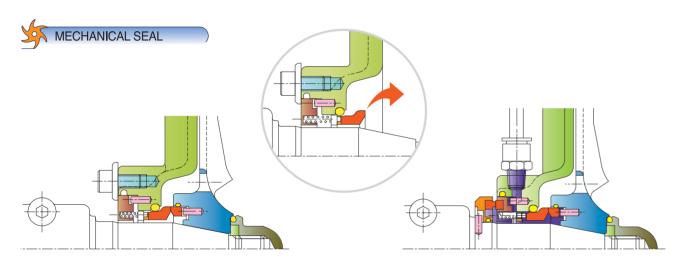

JCP series Centrifugal Pumps

IFC - Always a Step Ahead

- The JEC JCP Series pumps are ideal for hygienic application in field of dairy, food, pharmaceutical and other industries where acid-proof steel is resistant to the liquids to be pumped.
- The pumps come from long-term developed activities and experiences in the production of pumps combined with accumulated knowledge of products and their process.
- Ensures totally cleanable and self-draining for CIP and SIP so as to meet EHEDG and 3-A standards.
- All parts in contact with the liquid casing, impeller and shaft are made of AISI316 stainless steel.
- Only one size of shaft seal is required for all JCP series, so keeping a few parts in stock is simple and economical.
- Unique front-loading product seal gives benefits of faster maintenance, easier cleaning and less downtime. Without disconnecting the process line, both impeller and product seals can be fully accessed from the front of the pump by removing only the front cover.
- Further a self-balanced single seal can be easily changed to double seal in minutes with just a few extra parts.
- Packing of EPDM standard is designed for repeated SIP and severe conditions. Other materials are available as required.
- The pump can deliver capacities up to 100m³/hr and head up to 100m.

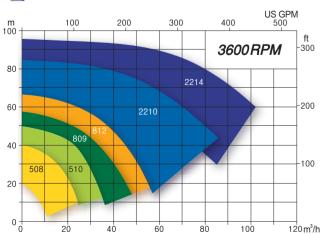

Standard Mechanical Seal

• Face materials SiC/Carbon(STD), Optional - SiC/SiC

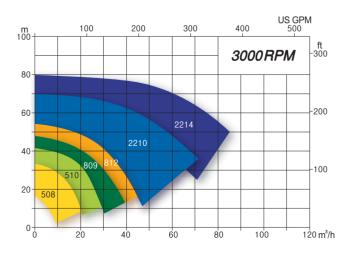

Flushed Mechanical Seal

• Elastomers EPDM(STD), Optional - VITON, PTFE, Carlez

Performance data refer to water at 20 $^{\circ}$ C, Permissible tolerance $\pm 5\%$

"The higher the precision the longer the span of product life"

JCP Series Centrfugal Pump

Compact, Rigid Shaft

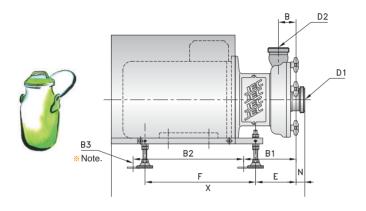

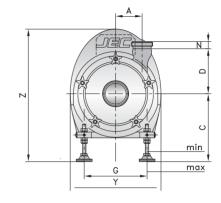

"The reliable choice for your process"
