

# SRM Spring Rubber Mount (Deflection: 5.5mm)

## ■ Features

It is an improved, mount version of SRP type spring rubber pad taking advantage of anti-vibration rubber and metal spring. SRM type enables control of the level to reduce horizontal deflection. Moreover, its external housing is made of stainless steel to prevent corrosion when installed outside.

## ■ Usage

- ◆ For facilities and equipment (for example, PUMP, AHU and FAN)
- ◆ For industrial equipment (including Press, Shearing Machine and Lathe)
- ◆ For all kinds of equipment installed on a solid base
- ◆ For vertical and horizontal pipes
