

# 관성모멘트 측정 장치

## Inertial Moment Measuring Equipment

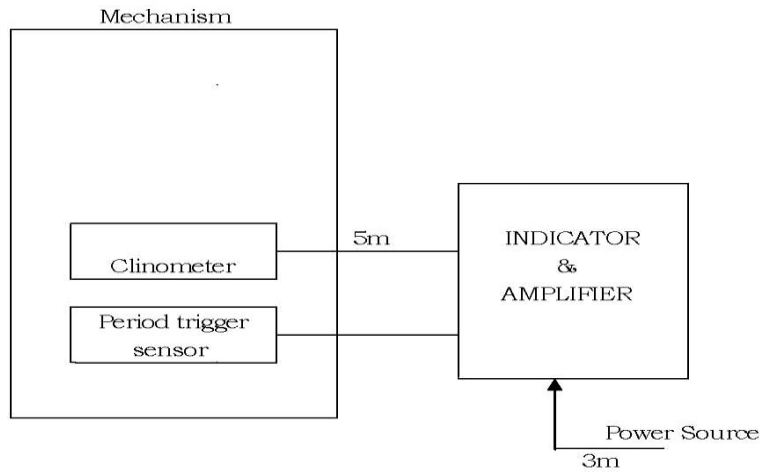

Spec. No. 130717-1

### MEASUREMENT DEVICE FOR MASS MOMENT OF INERTIA Outline Specifications

#### 1. SUMMARY

This device is used to measure the measurement of Mass moment of inertia (Pitch and Roll).

#### 2. SYSTEM BLOCK DIAGRAM

#### 3. SPECIFICATION

Ship model	length : approx. 8m
	Weights : approx. less than 10ton
Power Source	φ 1 AC220V, 50Hz

#### 4. COMPOSITION

Mechanism	1set
Sub-carriage	1set
Clinometer	1set
Period trigger sensor	1set
Indicator and Amplifier	1set
Connection cables	1set
Instruction manual	1copy
