

Product Features

- limited type anti-vibration mount.
- This product can be used when the operation weight of equipment shall be increased and different from stop weight.
- Adjusting optimized height level.
- Easy to adjust level by control bolt.
- Attached Neoprene Pad in order to avoid structure borne-noise transmission.
- One side of Neoprene Pad is cut for drain to prevent product corrosion.

Product Configuration

- Upper part steel plate
- Temporary strut
- Control bolt
- Upper part spring cap
- Coil spring
- Lower part spring cap
- Lower part steel plate
- Neoprene Pad

Product Usage

- Refrigerator, Cooling tower
- Generator
- Anti-vibration of heavy weight vibrator etc
- Anti-vibration for vibrator without strut
