

03. Atmospheric Plasma Cleaner

This system can be applied by In-line system, roll to roll system and batch system to chip packaging, PCB manufacturing and display.

Schematic Diagram for Vacuum Plasma

Before

After

Atmospheric Plasma Cleaner (*Platom* ZAP-4600 Standard Series)

Description	Standard Model	ZAP-4600
Power Source		Medium Frequency
Process Gas		Ar, O ₂ , etc.
Electrode	Size	4 ea x W600mm (Number of electrode and width can be changed by customers request)
	Cooling	Air
Loading Type		Sheet to Sheet / Magazine to Magazine / Roll to Roll
Exhaust Gas		Scrubber, Dry Type
Application		Chip Packaging / Glass (LCD, PDP Panel) / PCB & FPCB Polymer / Silicon, etc.
